PETITION UNDER 37 C.F.R. § 1.182 TO CORRECT RECORD OF ORAL HEARING

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir or Madam:

Appellants respectfully petition the Director to correct the Record of Oral Hearing mailed February 6, 2008 (the "Record") in the above-referenced case. The petition fee specified in 37 C.F.R § 1.17(h) accompanies this petition.

The undersigned counsel for appellants was present at the oral hearing held January 17, 2008. The Record contains certain errors in counsel's remarks made at the hearing. The Director is requested to correct these errors in the Record as itemized below:

1. On page 6, line 11, "and the data without" should be corrected to "in the data without".

2. On page 6, line 13, ""perspective ones at the post" should be corrected to "**respective** ones **of** the **posts**".
3. On page 8, line 3, "is not relevant to the data to" should be corrected to "is not **relating** the data to".
4. On page 8, line 5, "rate of relevance" should be corrected to "**rating** of relevance".
5. On page 8, lines 22-23, "item and information; now asking the user to say" should be corrected to "**items of** information; **not** asking the user to say".

The foregoing errors create a partially nonsensical record that does not accurately record what appellant's counsel said at the hearing. Therefore, it is appropriate that these errors be corrected, either in a corrected transcript or by otherwise entering the indicated corrections.

Respectfully submitted,

Date: March 12, 2008

/Jonathan Jaech/
